PRESS RELEASE SLP | MARCH 2013

This is a public notice to all Florida vehicle owners and automotive professionals; effective January 2013, **The Eng Group LLC** is the sole Florida importers and distributors of **High Quality Synthetic Oil and Lubricants** manufactured by **Fuchs Europe**.

Fuchs was established in 1931 in Mannheim, Germany by Rudolf Fuchs and represents over 90% of the synthetic oil and lubricants used in German luxury and diesel vehicles throughout Europe.

The scope of products provided by **Fuchs** includes: Engine Oil for gasoline and Diesel powered motors, Transmission Hydraulic Fluids systems (ATF), Suspension, Clutch and Brake fluids, Refrigerant systems and point-of-lubrication synthetic grease (Renolit). Fuchs is one of only a few "original-fill" products used in all German vehicles, light and heavy trucks, buses and heavy equipment in Germany and Europe.

SILKOLENE LINE FOR ALL MOTORCYCLES NEEDS: ENGINES, CHAINS, GEARS, MAINTENANCE.

The Eng Group LLC has been designated as the exclusive representative distributor for the State of Florida. | [HTTP://WWW.GENERALOILS.NET](http://www.generaloils.net)

We estimate that we can make available for distribution a minimum of 100,000 gallons of high-quality synthetic oils and lubricants in the first year alone.

A savings of 10-14 liters of engine oil versus other inferior oil is realized when **using Fuchs full synthetic products**, not to mention the time-savings advantage of fewer visits to the repair shop. All this creates a **major environmental savings**, due largely to the service interval increase caused by the longer-life synthetic oil. The intervals are anywhere from 11, 000 to 13,000 miles and in some cases 15,000 miles between oil changes!

Environmental Savings and **Superior Fuchs Quality** coupled with **attractive** and **competitive** pricing will make Fuchs Europe oils and lubricants a very attractive choice for luxury vehicles clients.
